Testimonial (mother tongue):

I can't even express all my feelings regarding my Canadian trip. When I arrived to Canada, I was really nervous, but when I entered GEOS for the first time, the nervousity was suddenly gone. One would have a really hard time looking for a better place for not only studying English but also meeting new friends. Thank you very much to all of my teachers and friends for making my trip the most best amazingly awesome experience in my whole life!
